NEWS/UPCOMING EVENTS

Block Litter Campaign

The block litter campaign is a collaborative program between OCRRA and Save the Rain. This program urges members of the community to do their part to keep Onondaga Lake clean by taking a pledge to pick up and prevent litter. The program was formally announced by County Executive Joanie Mahoney on June 19th, 2017.

Upcoming Events:

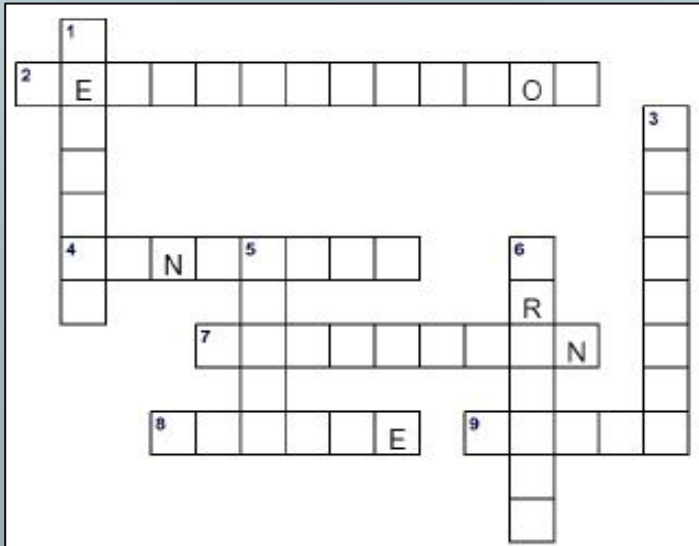

- Rain Barrel Workshop, Syracuse Metropolitan WWTP: August 9th
- Save the Date for Save the Rain: Clean Water Fair, Syracuse Metropolitan WWTP: September 16th

SAFETY TIP:

Take regular breaks. Many workplace injuries or illnesses occur because an employee is tired or stressed. Allowing yourself to take a break and regroup is a good way to avoid this, even if it just means stretching or taking a moment to breathe.

Crossword Puzzle:

ACROSS:

- 2. The act of cutting down or burning trees in an area
- 4. An area of land where large amounts of waste material are buried under the earth
- 7. The presence of a harmful substance or thing in the environment

- C. The horse that won the Kentucky Derby
- D. None of the above

ANSWER BELOW

↓ Personnel FYI's ↓

FYI: You can check your own Vacation/ Sick/ Personal time balances directly through KRONOS

To do so:

Push the button next to the time you would like to see on the home screen, and then swipe your ID badge. It's that simple!

FYI: Retirement Resources

To make an appointment with an information representative to discuss your retirement related questions you can call 1-866-805-0990.

ANSWER: (to question above)

D. None of the above. Wild Parsnip is actually a dangerous and invasive plant that is known to grow in this area. Sap released from this long stemmed flower can cause serious skin burns and blistering when combined with sunlight. These plants are typically found along roadways or in fields. It is important to be able to recognize this plant so that you may avoid contact. For more information, please reference the safety memo from 7/24/2017.

TRIVIA

- 1) There are over 3000 distinct species of fish. About how many of these are known to inhabit Onondaga Lake?
