Contract Drawings

CHEMICAL FEED EQUIPMENT CONVERSIONS
FOR SODIUM HYPOCHLORITE DISINFECTION

Project #587346

Contract No. 5 - General

General Notes:
1. The Contractor shall provide all labor, materials and equipment required to complete the work specified in these contract documents.
2. All work shall be completed in accordance with all applicable local, state, and federal regulations, including the most recent state laws to these regulations.
3. All work shall be completed in accordance with the requirements of these project documents. Any discrepancies or errors in the contract documents shall be resolved by the Department's representative prior to proceeding with the work in question.
4. All work is to be completed in a first class manner by qualified and skilled subcontractors.
5. The Contractor shall be responsible for familiarizing his workforce with each project location, and coordinating all work necessary to complete the work scheduled to take place in a timely manner. All work scheduled as part of this project shall be performed without any restrictions or limitations due to the extent or type of work being performed or any work which may affect or delay the operations of the existing facilities.
6. The contract drawings herein are to provide information regarding existing conditions and the configuration for the new work. For the sake of clarity, these drawings may not include all existing conditions and existing conditions in the field.
7. The Contractor shall be responsible for protecting and securing the site; the premises, unauthorized entry, vandalism or vandalism. The Contractor shall maintain the site in a safe, neat and orderly condition, and shall promptly remove any debris, dirt, slash and debris resulting from their work.
8. All materials and equipment removed as part of this contract shall become the property of the Contractor and removed from the project site unless otherwise notified by the Department. At no time shall the Contractor remove any materials from the project site without prior written authorization from the Department.
9. All materials, equipment and ownership shall be subject to inspection and testing by the Department's representative, including work already completed but not finally inspected. No work shall be covered or otherwise concealed without the Department's written consent.
10. The Contractor shall, at his own expense, assume in their places and permanently protect from direct or indirect injury any and all persons, structures and property in the area adjacent to the work. The Contractor shall be responsible for any accident, injury or damage which may be sustained by any of them.

Project Locations:
1. Brewerton Water Pollution Control Plant (WPCP)
2. Baldwinsville - Seneca Knolls Water Pollution Control Plant
3. Wetzel Road Sewage Treatment Plant (STP)
4. Oak Orchard Water Pollution Control Plant
