Contract Drawings

CHEMICAL FEED EQUIPMENT CONVERSIONS FOR SODIUM HYPOCHLORITE DISINFECTION

Project #587346

Contract No. 5 - General

General Notes:
1. The Contractor shall provide all labor, materials and equipment required to complete the work specified in these contract documents.
2. All work shall be completed in accordance with all applicable local, state, and federal regulations, including the most recent state laws in these regulations.
3. All work shall be completed in accordance with the requirements of these project documents. Any discrepancies or errors in the contract documents shall be reviewed by the Department's representative prior to proceeding with the work in question.
4. All work is to be completed in a first-class manner by qualified and skilled laborers.
5. The Contractor shall be responsible for familiarizing his/her subcontractors with each project occasion, and coordinating all work requirements to complete the work scheduled in these documents in a timely manner. All work scheduled as part of this project shall be performed within the contract period specified in the contract documents. The Contractor shall ensure that the work is performed in accordance with all requirements of the contract documents. The Contractor shall be responsible for ensuring that the work is performed in a manner that will not affect or disrupt the operations of the existing facilities.
6. All contract drawings herein are to provide information regarding existing conditions and the configuration for the new work. For sake of clarity, these drawings may not include all existing conditions. The contractor is responsible for verifying all dimensions and existing conditions in the field.
7. The Contractor shall be responsible for protecting and securing the site of the work from trespassers, unauthorized entry, malicious mischief, and vandalism. The Contractor shall maintain the site in a safe, neat and orderly condition, and shall promptly remove any debris or dirt, ladders and debris resulting from their work.
8. All materials and equipment removed as part of this contract shall become the property of the Contractor and remain immediately from the project site unless otherwise notified by the Department. All material removed from site shall be disposed of in accordance with all applicable local, state, and federal regulations at the time.
9. All materials, equipment and subcontractors shall be subject to inspection and testing by the Department's representative, including work already completed but not finally completed. No work shall be covered or otherwise concluded without the Department's written approval.
10. The Contractor shall, at its own expense, sustain in their places and permanently protect from direct or indirect injury any and all offices, structures and property in the vicinity of the work except for damage to contents or equipment of which damage will be in turn made good by the Contractor. The Contractor shall be responsible for damage to land or other property caused by the Contractor or anyone acting on behalf of the Contractor, or for any repair or restoration necessary to avoid or prevent damage to the land or other property.

Project Locations:
1. Brewerton Water Pollution Control Plant (WPCP)
2. Baldwinsville - Seneca Knolls Water Pollution Control Plant
3. Wetzel Road Sewage Treatment Plant (STP)
4. Oak Orchard Water Pollution Control Plant
